Connectable on mains

Fresh water supply: brass union to be connected on male outlet 1
Washbasin : supply by a stainless steel flexible hose fitted with an open/close butterfly valve

Toilet : supply by a rigid PVC pipe fitted with a two-way valve allowing to control the flush (draining and flushing of the toilet) and/or stop the supply in fresh water

Sewage disposal by gravity : Rigid PVC Ø 110 mm at the back of the tank - Drainage of grey waters and urine directly into the waste water of the WC.

Functioning

- Connect your clean water supply hose and connect the drainpipe to the sewage
- Fill the tank of the washbasin completely and close the water supply with the valve. The WC tank doesn't require a special start-up.

Handling

- 4 lifting eyes

Colors

- BLUE or GREEN

Seat-toilet or squat-toilet versions available
